Congressional Nominations.

NASHVILLE, Sept. 14.—J D C Atkins from the 8th district, and Hon. Wm. McFarland from 1st district, were nominated by acclamation for re-election to Congress. Gen. Maney, Independent Republican candidate for Governor, has withdrawn from the canvass.

ELGIN, Ill., Sept. 14.—The Democratic Congressional Convention 4th district to-day nominated John Farnsworth.

Chamberlain Nominated for Governor of South Carolina.

COLUMBIA, S C, Sept. 15—1 A. M.—In the Republican convention Chamberlain has just been nominated for governor. On the first ballot the vote stood: Chamberlain 88, Dunn 31, Corbin 2, Elliott 4. The other nominations will be made to-morrow.

Suffering by Reason of a Fraudulent Bank.

POTTSVILLE, Pa., Sept. 14.—The recent suspension of the Miners' Trust Co. Bank, with $1,500,000 liabilities, is beginning to be keenly felt by those depositors who for years have been in the habit of withdrawing certain sums on the approach of winter sufficient to keep them through the slack time. To-day the president of the bank, Jos. Huntzenger, was surrounded by a crowd of women who became so demonstrative that it was necessary to call the police. This evening the directors made assignment and appointed H. C. Russell and R. S. Madden as assignees.

Kicked to Death.

ST. LOUIS, Sept. 14.—A fracas in a boarding house on the corner of Carr and Main streets occurred last night in which Timothy Ford was kicked down stairs and injured so bad that he died soon after. Jno McDonough, who did the kicking, was arrested.

Yellow Fever.

SAVANNAH, Sept. 14.—Yellow fever interments to-day, 18.

WASHINGTON CITY.

Hesing to be Pardoned.

CHICAGO, Sept. 14.—The Journal's Washington special says Attorney General Taft, after very thorough examination of the case, has decided to make out the papers for the pardon of A. C. Hesing and to recommend to the President that it be granted. District Attorney Bangs of Chicago in his report to the attorney general expresses himself in a way which Judge Taft considers a virtual recommendation in favor of granting the pardon. In looking into the facts, Judge Taft says he is convinced that there was an understanding with Hesing on the part of the prosecution that if he would plead guilty his punishment should be merely nominal. That understanding, Judge Taft says, was not carried out in good faith, as it ought to have been, but, instead, a severe sentence was given to Hesing without the judge probably being fully aware of the immunity promised. It will be remembered Hesing's sentence was for two years.

French Mission to Secure Aid for an Inter-Oceanic Canal.

CHICAGO, Sept. 14.—The Tribune's Washington special says: "M. Leon Drillet, a distinguished engineer and secretary of the French Geographical Society, arrived here yesterday on a mission to obtain aid for a complete survey of the Central American isthmus, with a view of building an interoceanic ship canal. He called to-day upon the officers at the Navy and War Departments and presented his views, but was astonished to learn that the officers of the navy have at various times during the last 25 years thoroughly explored that whole region from Tehauntepec to the Bay of Cupica and over nearly forty proposed routes. He presented a pamphlet of the meeting of the Societe de Geographie in last May, in which are reported the remarks of M. Ferdinand L[illegible], who advises a complete survey of this isthmus to find a location for a canal which can be built without locks. The inter-oceanic counsel [illegible] reported to the President last fall favoring the Nicaragua route, and one member [illegible] the adoption of a treaty looking to its construction, based on the principles of the Clayton Bulwer treaty of 1854. A minister from Nicaragua has been appointed to treat with this country on the subject, and he will probably arrive [illegible]

[illegible] Chandler's Expectations.

Secretary Chandler returned from New York this morning [illegible] All and hopeful in view of the Republican outlook. He says advices from Ohio and Indiana are encouraging for a rousing Republican majority in the former State and for a moderate one in the latter. He expects New York will go for Hayes and that even New Jersey will cast its electoral vote Republican. From California he learned that the dissatisfaction over the Chinese question has been overcome and it is probable both California and Oregon will cast their votes for Hayes and Wheeler. Of the Southern States Chandler relies upon North and South Carolina and Florida to give Republican majorities.

Purchased.

Congressman Walker of Virginia has purchased General Belknap's residence for $30,000.

Treaty with Great Britain.

CHICAGO, Sept. 14.—The Tribune's Washington special says: It is certain negotiations are pending for a new treaty with Great Britain which will be devoted chiefly to extradition. It is understood the initial steps have been taken by Great Britain and it is safe to say that in any new treaty submitted Great Britain will be bound to place the United States officials upon the same footing with her own. This has not been the case under the treaty which is now abandoned.

Schurz Rumor Denied.

The *Inter Ocean's* Washington special says Secretary Chandler denies positively the story that he has requested Schurz to leave the stump. He and Schurz are in perfect accord.

THE TERRITORIES.

A gentleman just from Lewis county reports the crops in that section as very heavy, but troublesome to harvest. Oats and wheat are the chief stand-by. Potatoes are untouched by the blight.

The smallpox scare on the Puyallup is said to be cooling down quite rapidly. There are only the five cases reported some time ago and they are getting along as well as could be expected. Hop picking is progressing rapidly and altogether things look very promising.

Valuable quartz mines have lately been found near the headwaters of the Payette and Loss river, about eighteen miles from Atlanta. Several parties have lately gone out there, among whom were Mr. Wanner, a Nevada quartz miner, J. M. Thompson, county assessor, and Mr. Faris, one of the discoverers of the Atlanta mines.

The Pauper hoisting works, boarding house and three hundred and fifty cords of wood were burned on Wednesday night at Silver City. The premises had not been occupied for some time, and some Indians had camped there that day, and the impression is that they went off and left a fire in a careless way, which was the cause of the mischief.

The *Tribune* of the 13th says: The schooner *General Harney* left San Juan Island last Friday, having on board a cargo of 814 barrels of lime, 40 of which were left at Port Townsend, 624 at New Tacoma for Portland, and 150 brought here last night. The kiln on the island, though employing 14 men and turning out 60 barrels a day, is inadequate by one-half to supply the demand upon it.

It appears that the sensational report that was going the rounds at Seattle a few days since to the effect that a man by the name of Langston and his wife had been shot on White river, and which we reported as false, had its origin in the following manner: As Mr. Langston and his wife were out horseback riding through the woods, some hunter near the roadside, not being aware of their approach, discharged his gun, at the report of which Mr. Langston's horse took fright and making a sudden spring to one side threw his rider off, injuring him somewhat, but not seriously. The news of this accident soon reached Seattle, but it did not lose anything by being told, as is always the case.

Prof. Nixon, who does business under the firm name of Egyptian Prophet and Enchanter, performed his resurrection trick near Charleston, S. C., on August 28th. He was buried in a pine coffin six feet under ground and at the end of half an hour burst from the tomb at the sound of a brass bugle blown by a colored Gabriel, and immediately called for a drink of whisky. The grave was six feet long and six feet deep. About eight inches from the head board the trickster had dug a blind well about six feet deep. This was roofed with thin boards about a foot and a half below the surface and these were covered with earth. When the coffin was lowered into its place and the grave was filled up, the corpse knocked out the head board and grubbed his way through the six inches of earth that separated him from the blind well. Crawling into it, and having enough air to keep him alive for several hours, he quietly awaited the signal for resurrection.

BY ATLANTIC CABLE.

Too Much Penitence.

LONDON, Sept. 14.—A special from Paris to the *News* says it is rumored that Count De Chambord is dangerously ill in consequence of penitential rigors to which he subjected himself during a retreat of nine days.

Made a Cardinal.

The same dispatch says the proper elevation at the Pope's wish of Father Beckx, General of Jesuits, to a cardinalate is the great event in the Catholic world. Father Beckx is the future candidate of the ultra montane party for the Papacy. His election would tend to accelerate the old Catholic movement in Central Europe and could not fail, should the republicans go on prospering, to sever church and State in France.

Fallen Through.

The proposed scheme to lay a telegraph wire between New York and Paris has fallen through, failing to receive necessary subscriptions.

Boss Tweed.

LONDON, Sept. 14.—Tweed and his secretary, Hunt, left San Simon quarantine department for El Castillo de San Sebastian, and passed through Vigo on foot at mid day. Both were looking well, particularly Tweed.

The End of Polish Independence.

BERLIN, Sept. 14.—The former independence of the Polish administrative authorities has been entirely abolished by Russia, and the office of Secretary of State for Poland is to be suspended.

Cannot Bear Disgrace.

LONDON, Sept. 15.—The *Standard's* advices from Transvaal Republic report that after the defeat of the Boers President Burgess desired to be shot that he might not survive his disgrace. The President has been asked to request England to accept the Transvaal Territory.

Supports the Cabinet.

VIENNA, Sept. 15.—A dispatch to the *Times* reports that the Great Council, held by order of the Sultan, to consider the Cabinet's proposals for peace has confirmed on all points the resolutions passed before this decision had been submitted by the Sultan. It is of considerable importance when it is remembered how recently Sultans have had uncontrolled power and now their successor must yield to the decision of the ministry, which is against his convictions, or overrule it and change his advisers, unless he can effect a compromise. It is not for the interest of either side to carry the conflict to extremes and a compromise will probably be made.

A Growl from the Times.

The *Times* in a leader finds fault with Sir H. G. Elliott for tardiness in transmitting the news regarding the Eastern question and asks where Mr. Baring's report is, and why it has not appeared when Mr. Schuyler's report has been so long before the public. Parliament must meet this autumn if the government does not make the facts public promptly. The article continues: "We are now passing through a time when momentous issues are hanging in balance. In the middle of May the object of paramount importance was to prevent Servia and Montenegro from engaging in war, in the middle of September the danger to be avoided is the appearance of Russia as a belligerent. Every lover of peace must struggle against it. If Russia enters the lists, our diplomacy will doubtless become more energetic, but nothing more. We are, however, dwelling on no unreal danger when we declare the present moment big with issues whether the war cease or assume a new and more tremendous character."

Account of Turkish Murders.

LONDON, Sept. 15.—A dispatch received at the foreign office from Sir H. Y. Elliott, British ambassador at Constantinople, states that in addition to the arrest of the leaders of the Bashi Bazouks, the governor general of Adrianople has been dismissed for maintaining the general armament of Mahommedans, the necessity for such precaution having passed. Elliot says the British officer attached to the Turkish headquarters reports that great depredations have been committed in Servia, but no case of the outrage of women or mutilation of wounded is known. On receipt of intelligence the ambassador remonstrated with the Turkish government against the depredations and stringent orders were sent to the commander of the Turkish forces to put a stop to them.

Russia's Efforts to Induce Emigration to the Crimea.

The *Standard's* Berlin special says Russia is endeavoring to induce the Bulgarians to emigrate to the Crimea, where the population is decreasing on account of the expatriation of Mussulman Tartars who get settlements in the Greek provinces of Turkey.

Proceedings of the Geographical Congress.

BRUSSELS, Sept. 14.—The geographical congress brought its sittings to a close to-day. It decided to form an international association with a view of exploring Africa and suppressing slavery. The association is to be composed of two members from each country, besides honorary members. The king of the Belgians is to preside the first year.

WHY DO WE LOOK FOR BETTER THINGS FROM GOV. HAYES?—Why, then, considering all things, do we look for better things from an administration led by Gov. Hayes? This is a fair question and entitled to a fair answer. Because there is in the Republican party an honest element which triumphed in his nomination. Because he is not the candidate of the faction which for the last four years has been dominant in every department of the government. Because he brings to the canvass a weight of good personal character which in times like these we cannot afford to disregard. Because he has pledged himself to a reform of those branches of the government which most sorely need it. Because his election does not necessarily imply universal redistribution of places and their profits, with all the demoralization which must accompany it. Because all the circumstances of his nomination put him under the weightiest of moral bonds. Gov. Tilden, whatever his merits, is the representative of a party which professes to be as it always has been, and the sole guarantee of which is in a record by no means unexceptionable. Gov. Hayes is the representative of a party which by his very nomination has acknowledged its errors and declared its determination of correcting them. Gov. Hendricks is a candidate for a different office, and if elected his chief duty will be to preside in the Senate. One who is in his position may promise what he pleases without much danger of being here after taken to task, and yet we cannot see that Gov. Hendricks promises much for Gov. Tilden. A President who is to be a good one solely by reason of the virtues of the Democratic party might be nothing remarkably excellent after all.—*N. Y. Tribune.*

WASHINGTON COUNTY FAIR.

The Washington County Fair will convene on the 25th inst. Our regular correspondent writing from Hillsboro, says:

There are at present twenty horses on the track in training for the coming contests. I cannot now give the names or blood of the colts in training, but hope to do so at an early day. The old horses have been noticed so often that they are thoroughly well known.

In the two and three year old races Washington county feels able to compete with any and regard it as a feather in their cap that Bigham and Bybee are afraid to meet us this year in a contest for blood. The horse Will Bigham, which won Centennial honors, is said to have urgent business south.

The track is in fair condition and it is urgently hoped that we will have a good course for the trials this year. There are a few hard spots in it, but when wet and harrowed these will be all right. The large stock shed will soon be completed, as well as the lofty judges' stand.

The advance agent and bill posters of Queen's circus are in town, and the people are being treated to a gratuitous outside papering of their houses and fences.

Suicide.

SAN FRANCISCO, Sept. 14.—At Oakland a carpenter, name unknown, jumped overboard off the steamer *Alameda*, between the ferry slip on the San Francisco side and Goat Island, at noon to-day. Boats were lowered and an unsuccessful search made for the man. A bystander states that it was a clear case of suicide.

Justice Stock Assessed $5 per Share.

The managers of Justice have levied an assessment of $5 per share on their capital stock. They allege they have only done this to pay off the $500,000 indebtedness that occurred under the former management. This once done the mines, they claim, will be on such a profitable basis that will pay dividends within a month afterwards.

Jost Case.

The trial of the Jost case continued to-day, revenue agent Crane on the stand. A comparison of the steamer's and distillery's books was made showing discrepancies just as at the last trial. It was also shown that certain private books kept by Jost at his wholesale liquor house in this city, and used in the last trial of his case, have disappeared; also his liquor books used in the same trial, which showed that the stamps were used two and three times have been scratched and otherwise mutilated, and one liquor book of the same kind, kept by Jost, cannot be found.

The Lick Trust.

The new members of the Lick Trust, Mastick, Sherman, Plum and Schoenwald, have held several interviews with the old trustees in order to hasten a satisfactory adjustment of affairs. All the old trustees, save John Lick, have signified their readiness to resign, and have requested their attorney, Mr. Felton, to do all he can to facilitate their retirement. It is reported that a telegram was sent to-day from the retiring trustees in this city to John Lick, of Pennsylvania, requesting the latter to resign. If he fails to comply, legal steps may be taken to force him out.

Suicide.

SAN FRANCISCO, Sept. 14.—A Frenchman, name unknown, committed suicide this afternoon in his room at the California Hotel, on Montgomery Avenue, by taking strychnine. He left a brief note intimating poverty and disappointment as the cause of the act.

The Rescuer of the Fenian Convicts Arrived.

Capt. Thos. Dermond, who was an active promoter of the scheme to rescue the escaped Fenian prisoners from Australia, arrived on the train from the East this evening, and is being entertained by the Knights of Red Branch at their lodge room.

Anti-Opium Ordinance.

VIRGINIA CITY, Sept. 14.—The ordinance against opium smoking went into effect last night. The police arrested one Chinaman who kept a den. No white persons of either sex were seen in the dens during the night. Heretofore the attendance has been about 100 per night.

The Ruby City jailer was deposed by the police commissioners last night.

Water in Norcross has been reduced 155 feet below the 1,700 feet level.

Gunnison Mine Operations.

PALISADE, Sept. 14.—Gunnison mine is now successfully worked and is giving an impetus to this hitherto neglected locality. New claims are being taken up while old abandoned prospects are looked after by former locators with more than usual interest. To-day there was received per Eureka and Palisade railroad as the result of four days' run a bar of refined bullion weighing 1,407 ounces, valued at $13,500, and the superintendent confidently asserts that as soon as some little alterations are made in the machinery, he will be able to turn out a bar a day. The section of country in which this mine is located is well wooded and abundantly supplied with water, hence the expense of working ore is reduced 50 per cent. as compared with less favored localities. The camp is easy of access and can be reached via the Palisades by the narrow gauge road in 48 hours from San Francisco.

BRITISH COLUMBIA.

Complaints against the P. M. S. S. Co.

VICTORIA, Sept. 14.—The *Standard* to-day has another editorial on the San Francisco mail service claiming that the Pacific Mail Steamship Co., though in receipt of $54,000 subsidy from the Dominion government for carrying the mails between Victoria and San Francisco, does not fulfill their contract, and the company run their ship in the interest and for the purpose of building up Puget Sound ports, and instead of the steamers coming to Victoria they land at Esquimalt, making Victoria only a way station between Seattle and San Francisco.

Ann Eliza Young.

SALT LAKE, Sept. 14.—The counsel for Ann Eliza having refused to give the indemnity bond required by the U. S. marshal, Judge Schaeffer ordered a release of the property of Brigham Young and return execution unsatisfied. Attorneys for plaintiff gave notice for attachment against defendant requiring him to show cause why he should not be punished for contempt.

Train Robbery.

SALT LAKE, Sept. 14.—This evening about 8 o'clock two masked men boarded the Utah Central railroad train eight miles north of this city, gagged Wells, Fargo & Co.'s messenger, opened the safe, took $15,000 and made their escape. Others are in pursuit.

Gambetta is very Jewish in type, says Mr. Conway in the Cincinnati *Commercial*. He has a strong, aquiline nose, a heavy brow, a swarthy complexion and straight black hair. He is not tall and is thick set, almost to portliness. His a good voice and is simple and direct in speech. His only gesture is to raise his large hands occasionally about three inches above the desk of the tribune and then bring them down again. In dress he is rather loosely. When he speaks in the Assembly it is hushed into perfect stillness.

Alexander H. Stephens might give lessons in political delicacy, if not in brevity of eloquence. He was recently asked to speak in the town where the Congressional Convention was to meet, and on the same day, and declined on the ground that it would be improper to do so, his name having been mentioned as a candidate for the nomination.

Resolved, That this House unqualifiedly disapprove of so much of the report of the superintendent of the Oregon State penitentiary as is contained in the subjoined extract, and that the said extract be expunged therefrom:

At the last session a portion of the committee was selected for the reason they were known to be personal enemies of the Superintendent, and the committee, against my written protest to the committee and both Houses of the Legislature, selected as its clerk T. McF. Patton, a man without character for honesty or truth, and at the time was a defaulter to the Government, and lying under an indictment for larceny from Jackson county, who has since paid a debt to the State in greenbacks at par which he contracted to pay in coin, thereby defrauding the State of the difference between coin and currency.

HOMESTEAD LEGISLATION.

PORTLAND, Sept. 14, 1876.

To the Editor of the Oregonian.

A correspondent of yours a few days since presented a list of measures which he thought deserved legislative action. A homestead law was included in the list. I quite agree with his suggestion, that we need a homestead law. The failure to enact one is one of the most surprising things in the legislation of the State. The other States of the Union have with great unanimity adopted these laws, and in so doing have kept up with the spirit of the age. While we are talking about immigration and are endeavoring to bring our climate and soil to the favorable notice of the world, we should not forget that our laws are a factor in the problem of an increase of population and the development of our resources. The class from which we invite immigration, and from which we must expect immigration to come, are composed principally of those of moderate means, those just starting in life, and those who having met with misfortune in business are seeking to begin again with no other capital than a stout heart and willing hands. All of the new States, Oregon alone excepted, offer to this class liberal homestead and exemption laws. The man who pulls up stakes to go with his wife and children into "a far country," is experimenting with fortune. He is naturally solicitous about the result, and in the selection of his future home, he will usually give that State the preference which enables him to make some provision for his family against the accidents of business and other misfortunes of life.

I have here indicated but one of the considerations which should persuade us to abandon the policy of a dead age and try to pull up alongside of the enlightened present. B.

CROP PROSPECTS ON WHITE RIVER.

The Seattle *Intelligencer* says: "We learn that the farmers on White river are not yet through harvesting their grain crop. Two thirds of the grain in the valley remains out, and unless the weather continues as favorable as it has been for several days past, they apprehend serious damage to the grain crop. There has already been a considerable amount of grain damaged by the unseasonable rains; but if the weather continues favorable the greater part of the crop can be garnered in good condition. The farmers along the river are beginning to look to the cultivation of hops as a more profitable business than the production of potatoes and grain. The big bugbear in their way seems to be the expense which must be incurred in starting the business, the principal items in which are the construction of suitable buildings and setting out a yard. It is said to cost about thirty or thirty five dollars to pole and plant an acre to hops, and the buildings would necessarily be quite expensive, but all this seems a mere trifle when we consider the fact that a single crop will frequently cover all the outlay incurred in planting and cultivating the hops and erecting buildings, etc. In consideration of the outlay which must be made before embarking in the business, and the uncertainty of getting a good price for their hops each season, some of the farmers seem to be in a dilemma as to which, in the long run, will be the most profitable, the hop or the dairy business, as the soil there is propitious to the growth of grass and things considered the valley is very favorable to the production of cheese and butter which are always staple articles. If butter should not bring more than twenty five cents per pound they would then make a good profit.

Mr. William Cullen Bryant's position with respect to the two presidential tickets has been the subject of a good deal of unauthorized gossip. The New York correspondent of the Philadelphia *Ledger* makes the following statement in regard to it: A few days since a gentleman prominent in the book trade wrote to him (Mr. Bryant), at his country residence at Cumington, Mass., soliciting his views on the subject, and to this letter he has written a reply. Mr. Bryant says in substance, that while he thinks Mr. Tilden the superior of the Republican candidate as regards intellectual force, executive ability and valuable political experience, the Democratic party is running so much in its old tracks that it can not be trusted. He would like to vote for Mr. Tilden, but the policy of the party which has taken him for their standard bearer is such that he cannot conscientiously do so. As things stand at present, therefore, Mr. Bryant will support the Republican candidate and the Republican platform.

It is proposed to organize in New York a cheap cab company with a capital of $1,000,000, similar to those now in operation in London, Paris, Berlin and many other European cities. The cabs will be large enough to accommodate four persons inside, with room for baggage on top. They will ply at the rate of fifty cents an hour for trips not exceeding an hour. Stands are to be arranged throughout the city and cabs will be stationed at them night and day.

Democracy is at a low ebb in Iowa. In the State convention the other day only 53 out of the 100 counties of the State were represented, and the whole body numbered only 70 men. Evidently the people of Iowa think they can get reform enough with Governor Hayes.

FRIDAY MORNING, SEPT. 15, 1876

THE DOINGS OF KING CAUCUS.

It was reported on the streets last evening that the Democratic members of the legislature had gone into caucus and taken a ballot for U. S. Senator, resulting in 20 votes for Grover, 18 for Nesmith, 8 for Kelly and the rest scattered around promiscuously. On that showing the governor is going to have rather a "rocky road to Dublin," with the chances very much against his ever getting there. Nesmith developes more strength than it has been generally supposed he could command at the outset, and it may turn out that his strongest game is to favor caucus rule. Of course the first ballot does not indicate very certainly the final preferences of the members, as a good many of them would vote in caucus, for a few ballots, for candidates from their respective localities, any such being in the field, and we are not aware of any locality which has not a candidate. After three or four ballots, at most, the voting for "favored sons" will cease, and the serious work of [illegible] the people with a caucus job will commence. It is whispered by knowing ones, or at least by some who pretend to know a thing or two, that a caucus nomination of Governor Grover would not be equivalent to an election. When the [illegible]bility of his receiving the caucus nomination was spoken of in presence of one of the most active and influential of the anti-Grover crowd, he shrugged his [illegible] and, with a sly wink, [illegible] along the shores" of his left [illegible] "Yes, very likely. Gov. Gibbs [illegible] by the Republican caucus in [illegible]. There is a Mitchell for every Gibbs." This remark may well disturb [illegible] of the Governor, so long as [illegible] prize is not actually in his [illegible] "There's many a slip," &c., or words to that effect.

GO ON.

The spirit and intelligence with which [illegible] turns its face, imme[illegible] its organization, toward [illegible] where faithful, honest, efficient work is needed, must commend [illegible] to the country. An inquiry is set on foot as to the practicability of reducing the ex[illegible] of keeping the insane; another as to the management of the school [illegible] still another concerning the Agricultural College; and a bill is introduced to check in the management of the penitentiary. These are points wherein it is generally supposed there are [illegible] should be stopped. Let there [illegible] thorough examination of all matters [illegible] is, reasonably, expected the [illegible] of past legislation has left [illegible] to be done to save the treasury [illegible] and let every useless ex[illegible] of public money be cut off, and [illegible] can then afford to expend [illegible] it will benefit the people. [illegible] jobs interfere with the [illegible] everything that ex[illegible]ense of the State. Oregon is not so populous or so opulent that [illegible] all her resources [illegible] ways as will promote the [illegible] Go on with [illegible] of the legislature, [illegible] part's in strife and per[illegible] but with a determination [illegible] such reforms as the public [illegible] demand, and the people [illegible] representatives you are, [illegible] to record to you the honors [illegible] faithful public service should re[illegible].

TOO SMALL.

The committee to whom was referred [illegible] VanCleave's bill to aid in sending Oregon fruit to the Centennial Exhibition, have reported it back with a reduction of the appropriation from $500 to [illegible]. That is economy gone to seed. The [illegible] originally named was not half [illegible] it should have been. The object of [illegible] appropriation is worthy of the se[illegible] of the legislature. The reputation of our State as a fruit producing country can be placed on a level with her reputation as a wheat garden, [illegible] able appropriation to enable [illegible] to make such an exhibit of fruit as they have made of [illegible] for in fruit the superiority of our productions to those of the other States, both in quantity and in quality, is as marked as it is in wheat. We united [illegible] the most strictest retrencher in the [illegible] in his demand for economy; but niggardliness in this important matter is not economy. We shall be most [illegible] disappointed if before this legislature adjourns thousands of dollars are not squandered in political jobs, while a pitiful $250—which in all probability will not be used because nothing can be accomplished with it—is all that can be afforded to send to the East the most efficient emigration agent that could be found in the State, namely, a car load of our unrivalled fruits.

ASSESSMENT OF PROPERTY.

We are not advised of the provisions of Mr. Senator George's bill to create a board of State assessors. He has, we are informed, bestowed much attention upon the subject, and his well-known ability justifies the hope that the measure he proposes is such as will meet the requirements of the case. The equalization of assessments is one of the most difficult as well as one of the most important subjects with which the legislature is called upon to deal. Even the older States of the Union have not yet been able to devise a plan that will work satisfactorily, and they are still experimenting with various methods from session to session. Their property interests are, however, of so much greater magnitude than ours, and so complicated, that we may reasonably hope, with the aid of that experience, to get a law that will approximate reasonably near to fairness and equality in its operation. The legislature should not fail at this session to provide something better than the wretchedly inadequate and unjust system now in use.

Republican gain in Maine over the majority of last year 11,826—"and the band is still playing."

THE SCHOOL FUND.

Mr. Gault, of Washington county, is one of those pestiferous persons who always "just want to know, you know." He has introduced a resolution calling upon the Board of School Land Commissioners for information about the management of the lands in their department and and the funds handled by them. The resolution is exactly right in spirit, for, we all "want to know, you know," and we have to depend on these pestilent members of the Legislature to put us in the way of finding out. But we greatly fear this resolution will fail of accomplishing its object. We venture the prediction that when the response to the resolution comes it will fall far short of giving the exact facts in the premises. It will in all probability tell the truth, but not the whole truth. The inquiry should not be allowed to stop till the people's representatives are put in possession of all the particulars respecting the use of the sacred fund established for the education of the people's children. Nor should the matter be allowed to rest where it lies till the session is well nigh past, as it may do unless urged forward. The information may be withheld so long that when it does come it will be too late to investigate its correctness, or to ascertain such important facts as may be omitted. The people ought to know all about that large loan to A. Myers on inadequate security, and how much more of the fund has been squandered in the same way. They ought to know all about that Baker City Academy job. They ought to know how much of these funds are collectable, on how much the interest is allowed to remain unpaid, and what is at the bottom of all the apparently "crooked" loans. In short, the management of the school fund has been such that the people feel anxious to have an insight into the whole matter, and to have their representatives devise some means to prevent the further wasting of the money. Mr. Gault's resolution, unless we greatly mistake, will need to be supplemented by an investigating committee with plenary powers, and with no predilections toward the kalsomining business.

THE ELECTORAL VOTE.

Put this calculation of the probabilities of the Electoral vote, in your vest pocket till after the election and see if it is not pretty nearly correct:

FOR HAYES.

New York	35	New Hampshire	5
Pennsylvania	29	Vermont	5
Ohio	22	West Virginia	5
Illinois	21	Kansas	5
Indiana	15	Minnesota	5
Massachusetts	13	Rhode Island	4
Michigan	11	Florida	4
Iowa	11	Oregon	3
Wisconsin	10	Nebraska	3
North Carolina	10	Colorado	3
Maine	7		
South Carolina	7		239
California	6		

FOR TILDEN.

Missouri	15	Texas	8
Kentucky	12	Maryland	8
Tennessee	12	Arkansas	6
Virginia	11	Connecticut	6
Georgia	11	Delaware	3
Alabama	10	Nevada	3
New Jersey	9		130
Mississippi	8		
Louisiana	8		

Whole number of electoral votes, 369; necessary to elect, 185.

The *Statesman* says the OREGONIAN has made a "serious attack" on Dr. Hawthorne. We were not aware before of having made a serious attack or any other sort of attack on Dr. Hawthorne, nor that Dr. Hawthorne had done anything to warrant anyone in attacking him.

Tilden's promised "statement" about the income business has not appeared, and some people are grumbling at the delay. Give him time. The charge, backed up as it is by record evidence, is not one that even Tilden can "get away with" in a minute.

One of the funniest of the numerous grammatical blunders which mar the message of Governor Grover is that wherein he makes Hon. Hiram Smith, of Harrisburg, promise to "be under good training," with Willie Reynard for his master.

If the worst things charged against Blaine by the Congressional conspirators had been proved, the case against him would not have been nearly so strong as that which is already substantiated against Tilden.

Necessary to a choice, 46. Grover 20, Nesmith 18. Too short at both ends.

RUPTURE!

No More Metallic Trusses Used!

No More Suffering from Iron Hoops or Steel Springs!

THE SUPERIORITY OF OUR ELASTIC Trusses over the rigid Iron Hoops, which in former days were the only resource of the ruptured, admits of NO ARGUMENT.

By means of this appliance the pressure on the Rupture itself can be made uniform and continuous, and to the extent required in each case, until a slight inflammation of the parts is secured, and the consequent effusion of lymph which is essential to a healing process, and from this time to the conclusion of the treatment, the pressure, being entirely within the control of the patient, can be lessened daily as the adhesion progresses and the body becomes sound. All cases of reducible Hernia are permanently relieved without regard to the age of the patient or the duration of the injury, while in its action it is wholly free from all the cruelty that has characterized the treatment of the malady with torturous Metal Trusses from the earliest age to the present day. Your attention is called to the following facts:

1st—There are no springs to press upon, or to injure the back.
2d—It is simple in construction, and not liable to get out of order.
3d—This instrument is worn with perfect ease while riding horseback.
4th—The Rupture is retained and the pressure the same while in any position.
5th—It has none of the injurious results of metallic Trusses.
6th—It will perform radical cures when all others fail.
7th—It is worn with ease and comfort night and day, which cannot be said truthfully of an metal Truss whatever.

Experience shows that all tempered spring Trusses necessarily press upon and often disease parts of the body that before were in a perfectly healthy condition. Lumbago and other equally distressing ailments are not unfrequently the outgrowth of such pressure and in view of this fact it becomes a matter of decided consequence to avoid like calamities, if possible.

Examination Free. The closest scrutiny of physicians solicited.

Beware of Bogus articles called Elastic Trusses. Dr. ROWE, Inventor and Patentee of Elastic Trusses. All parties infringing either by sale or manufacture, will be dealt with in such manner as the law provides.

A WELL MERITED TESTIMONIAL.

Mr. Daniel O'Neill, the courteous and obliging gentleman who has served for the past three years in the capacity of purser on the O. S. N. Co's boats between Portland and Astoria, will require no formal introduction to the hundreds and thousands who have passed to and fro between the points named. Learning that Mr. O'Neill contemplated making a trip to his "native heath," on the other side of the Rockies, a number of his friends determined to present him with a substantial and merited token of the esteem in which he is held by them; also as an acknowledgment for the unnumbered favors of which they have been the recipients during the past few years. Last evening, while Mr. O'Neill was eating his supper on board the *Emma Hayward*, a number of his friends walked into the cabin unceremoniously and handed him two small packages, with the following letter, which will explain itself:

PORTLAND, Sept. 14, 1876.

DANIEL O'NEILL, Esq., Purser steamer *Emma Hayward*—Learning of your intended visit to the "home of your youth," and remembering that we have received from you unnumbered kindnesses in the performance of your duties as purser, and having the highest esteem for you as a man, a few of your Columbia and Willamette river friends desire to express their appreciation of your attention. Please accept from us this watch, chain and locket, also this purse of gold, and with them our best wishes that you may have a prosperous journey, a happy meeting with the loved ones of "auld lang syne," a safe and speedy return. Respectfully yours,

A FEW FRIENDS.

One package contained an elegant gold watch chain and locket, while the other proved to be a purse of $100 in gold coin. The watch was appropriately inscribed. On the inside of one case was the words: "Presented to Daniel O'Niell, purser of the steamer *Emma Hayward* by his Columbia and Willamette river friends, Sept. 14, 1876." On the inside of the other case appeared the names of those who had contributed as follows: R. D. Hume, Leveridge, Wadham, & Co., J. W. Cook, Jackson, Myers & Co., Hepburn & Co., J. G. Megler & Co., Jno. A. Devlin & Co., Fitzpatrick, Davis & Co., Hapgood & Co., Cutting & Co., Wm. Hume, John West, Watson & Barman, Badollet & Co., A. Booth & Co., James Laidlaw & Co., Jos. Hume, Megler and Wright, A. Van Dusen, B. B. Tuttle and others.

SHIPPING NEWS.

No new arrivals at or departures reported from Astoria.

The bark *Portland*, arrived from this port at San Francisco on the 9th with the first cargo of Oregon wheat.

The iron bark *Salado* is one of the most handsome vessels of that class which has touched at this port.

Both the barks *Edward James* and *Garibaldi* are under charter to carry passengers to China and will leave here in November.

The British bark *Ann Millicent* arrived at Liverpool on the 8th of September with a cargo of grain. The vessel sailed from here on the 13th of last April.

The British bark *Arctic* is being overhauled, deck recaulked, and hull treated to a new coat of paint. She will soon be hauled alongside the dock and commence discharging ballast.

The ship *A. M. Simpson*, 1,550 tons, was launched from Bath, Maine, on the 31st ult. and will probably load on this coast. She is painted Quaker gray, and carries a faithful figurehead of the gentleman after whom she is named. George Summer, formerly master of the steamers *Pennsylvania* and *Indiana*, will be placed in command.

The San Francisco *Bulletin* says: The marine disasters for August, in which the United States was interested, numbered 48, and the amount of property involved, exclusive of freight, is $520,000. The list contains four ships, but the only one in which San Francisco is interested is the *Garnet*, from Shields for this port with coal, an account of the abandonment of which off the Horn already has been published. In the corresponding month last year 19 disasters were reported, involving $285,000. The losses for the current month will probably show an increase.

LEGISLATIVE NOTES.

A LAZY CAUCUS AND SLOW WORK—WHY AN EASY THING TO DO IS NOT DONE.

[FROM OUR SPECIAL CORRESPONDENT.]

SALEM, Sept. 14

Matters legislative have progressed very quietly thus far since the organization of the two houses, though the progress has been very limited. In fact we might say except the election of officers, the provision of newspapers and stamps for the members, the perfection of the arrangement by which they hope soon to draw their mileage, and the appointment of the members of two joint committees, nothing has been done by the House up to this time, though two full days have elapsed since that body stated officially that it was ready to proceed with the business of the session. If ready, why don't it proceed is a query some may ask, but such as propound that question in good faith, seeking for information, don't know that the matter of getting the standing committees fixed so that the interest of the body politic or the Democratic party shall be subserved and preserved, necessarily takes up much time, and until these committees are fixed up, the House will meet and adjourn without doing much else. There was some disappointment felt by members who are not inside the ring that controls the matter, that the standing committees were not appointed yesterday. Caucus, which retards matters so much, is expected to have the list made up to-day, and then the lower branch expects to launch out into the business of law making.

NO BILLS

Have yet been introduced in this branch, but notice was given yesterday of the proposed introduction of several, but all of them are to be on subjects of minor importance, and nothing has yet cropped out in either house to indicate the temper of the members upon some of the weighty matters that it is supposed will be taken up later in the session. There are a good many

FAIR TALKERS

In the House—too many possibly for the rapid transaction of business. Among those who so far have aired their forensic linen, are some of the younger members that promise to give the House a good many exhibitions of the article before the session closes. The older members have not said a great deal upon any of the questions yet before them, though Payton, of Marion, made a brief argument on the resolution to appoint a committee to inquire into the practicability and feasibility of the State erecting an asylum and taking the care of the insane into its own hands, which displayed a careful study of the subject and an appreciation of the carefulness required in handling the subject. Crooks, of Linn, a gray haired member, though not a fluent speaker, is ready to express his opinions on all questions with brevity and point. Cheesman, of Lake, perhaps the most independent Democrat in the House, also talks well and will make an active member. Cornell, of Multnomah, understands himself pretty well and speaks out plainly when he sees what he believes to be error. He has the confidence of all the members who know, as being strictly honest in every respect, and it gives his words weight. Fidler, of Josephine, speaks pleasantly, and usually makes his points clear.

Lawrence, of Baker, whom many thought would hold position as a sort of leader on the Democratic side, has had but little to say in the session since the organization of the House. He is the most experienced talker in the body, and most likely will come to the front after the caucus work is finished, but we suspect he is busy with matters behind the scenes now. Among the younger members who are likely to take an active part in the eloquential strifes are Gilbert, Hunsaker, Goodsell, Gault, McBride, Grubbs, Chambers, and others on the Republican side, and Fenton, Ferguson, Porter of Linn, Haines, Reed, Straight and other Democrats. Though the Democracy has the advantage in numbers, for knowledge of parliamentary law and ability to argue any point that may arise, of a political character, the Republicans will be fully able to sustain themselves against any of the Demosthenean shafts that Democracy may hurl at them, and we anticipate they will be able to throw a few hot shot into the Bourbon camp during the siege.

THE SENATE'S PROGRESS,

Though resulting in but little actual legislation, has been rather better than that of the lower house, and in the same space of time they will get through with much more business. A few bills were introduced yesterday, some of them bearing on important matters, and the purport of which we will give when they get into more tangible shape. Among them is one appropriating $500 to defray the expense of securing a representation of the fruit-growing interests of the State at the Centennial Exhibition. This bill we believe to be a good one, and though the amount of money named in it is small, with the energy displayed by certain gentlemen, prominent among whom is the president of the Oregon State Agricultural Society, a good deal can be done with this pittance. The sum, however, ought to have been five times as much to do full justice to this important and growing industry of our State. We have been watching the House more closely than the Senate, and cannot give the names of the leading spirits in the upper branch, but you may be sure that there are a good many members there who will be heard on the various momentous questions that may come before them. Myers, VanCleave, Lee, Clark, George, Engle, Richardson and others will take an active part in the discussions as well as the actual work of the Senate.

THE MATTER OF PRAYER.

Your hold-over senator from Multnomah made a bitter little speech against the proposition to have the sessions of the Senate opened with prayer, in which he expressed a very great want of faith in religious exercises as being productive of good in any direction. His remarks were hardly flattering to the Christian sentiment of the country, and we are sorry he made them in a body among whose members are a good many church members. Myers of Clackamas contended for the proposition, and made a brief but telling speech in its favor. It carried by a large majority, but so far nobody has prayed much except in secret yesterday morning, in either house, be prayer ever so badly needed.

THE GOVERNOR'S MESSAGE

Has not been commented on a great deal, the general idea of it being apparently that it is quite as good a message as his Excellency usually writes, with nothing peculiarly striking in any of its main features. Some fault-finders claim that the Governor's system of figuring on the question of State expenses and taxation is not quite plain enough for the average mind to readily comprehend; in short that it is too much like Watkinds' bookkeeping, bringing out large profits, but they are in a sort of intangible condition, and the State don't appear to grow any richer, notwithstanding the increased revenues and the very strict economy practiced in every department. Our other duties have not allowed us to examine the message with carefulness; but don't it look to you as if, under the heading "Liabilities of the State," the figures ought to show how much the State owes? And the figures under that head foot up $717,196 31, with $63,894 54 in the treasury. Of course this is not all to be paid this year, or next, or even for several years to come, but is the debt of the State nevertheless, and the governor's idea that this thing of allowing the indebtedness to exceed the constitutional limit of $50,000 has gone too far is certainly insisted upon in the message.

THE PENITENTIARY,

And the way in which it is managed, is likely to take up a good deal of the time of the legislature, as there are several Democrats, as well as Republicans, who are after Watkinds' political top-hair, and though the full committee to investigate his conduct of the prison has not been appointed yet, the Senatorial members not being named, enough has transpired to show that very strong efforts will be made to extend the knowledge of Watkinds' system of book-keeping and to throw more light on the way in which an institution approaching a self-sustaining condition is made to cost the State so much money. We do not know how the Democratic members of the committee from the House to investigate this question stand related to the different Senatorial wings of the party, but they are said to be men of integrity of purpose and their friends claim that they will not do any whitewashing. We shall see more as time passes. Gilbert, the Republican of the committee, and the mover in the House for the investigation is a shrewd business man and no better man could be found in the House for the place on the committee. He will not do Watkinds an injustice, but as far as a minority can do so he will probe things to the bottom.

THE SENATORIAL CAUCUS

Has not been regularly organized yet, and on this question, matters stand in *statu quo*. It is said that Grover and Nesmith count 26 Democratic votes each, but whoever said it is deceived, or some "gay deceiver" among the members is playing Grover or Nesmith. There are only 52 Democrats in the two Houses, and you may be sure they are not so evenly divided as that. Slater has some strength and his friends are working hard. Other Democratic aspirants may have little numerical strength, but if each other man who has been mentioned has only one supporter, G. and N. couldn't have 26 apiece by a good many. Republicans so far have discussed no man's merit with a view to casting their votes for him and will probably not canvass the question a great deal, but vote for such a man as best represents their political faith.

MR. HALLETT'S FARM.

A friend who has just returned from a visit to Washington county gives the following description of the farm of John L. Hallett, Esq., the railroad contractor, with an account of his crops for the present year, which may interest our readers:

The farm is situated in the southwestern part of the county, near the Oregon and California Railroad, about two miles from the station at Dilley's, and contains eight hundred acres, principally of rich bottom and beaver-dam lands. It is most beautifully located, with sufficient timber land for fencing and other farming purposes. The dwelling house and other buildings are located upon a fine elevation overlooking the entire place. There is an abundance of fine spring and running water for all domestic and other purposes.

Mr. H. has supplied himself with the latest improvements and best of agricultural implements. He has gang plows, improved harrows, etc., etc., so that he can put in his crops in the quickest time with the least manual labor. He also has a reaper and harvester, and a powerful thresher or separator, driven by a locomotive steam engine of fourteen-horse power, which is really a wonder, and with which he can thresh and clean, ready for market, from 1,500 to 2,000 bushels of grain in ten hours. He understands that grain must be well put in, at the proper time, and harvested when ready, to make farming pay.

The crop this year consists of about 100 tons of timothy hay, which is all secured under shelter; winter wheat, 5,200 bushels, first quality, now stored in a large rat and squirrel-proof granary, sacked and ready for market; spring wheat, about 800 bushels, about half of which was in the granary when our informant left; oats, 5,000 to 6,000 bushels, over 1,000 of which were threshed and in the granary last Saturday, and all will probably be harvested during the present week.

Mr. Hallett appears to do his farm work with the same energy, skill and system which distinguished him as a railroad contractor, and is bound to succeed. His farm is well worthy of a visit from all who desire to see what can be accomplished by industry and well directed energy. His house, judging by its power of expansion, is made of India rubber, or is never so full but there is room for one more. His table—but our informant has some delicacy in speaking of that, as he gained five pounds in weight in one week's visit.

RELIGIOUS INTELLIGENCE.

Very Rev. J. F. Fierens has been on a missionary visit to Cornelius during the present week.

Rev. Father Lemmons, who recently arrived in the diocese of Victoria, has been stationed at Nanaimo, to the great joy of the catholics in that vicinity.

Master Edward O'Dea, for some time a student of St. Michael's college in this city, proceeded to Canada last week for the purpose of entering an ecclesiastical seminary in order to complete his studies for the priesthood.

A private letter received from Rev. F. P. Towers, transferred from the California conference and stationed at Salem, Oregon, announces that he will leave San Francisco for his work, Saturday, September 16th. Anthony, stationed at Taylor street, this city, leaves by the same boat.

The Sisters of the Most Holy Names in charge of the Academy of the Sacred Heart, Salem, will hold their annual bazar in the pavilion they hitherto have occupied on the Fair grounds. Additional efforts will be made this year to make the bazar attractive, and it is hoped the friends of the Sisters from every part of the State will help them to liquidate at least a portion of their heavy indebtedness.

Mr. H. B. Lutliffe, who has recently arrived from the East, and who has had experience, with Walter Struble will leave this week with a large line of samples as representatives of the house of Sherman & Hyde, music dealers. The firm have just added a large assortment of pianos and organs.

Kohn is receiving an immense stock of clothing, which he is selling at slaughtering prices.

No more use for wigs. Warner's Hair Producer will produce a new, natural growth of hair on any polished bald head at any age, from any cause except "scalding." Cures itching and dandruff, prevents hair from falling out three to ten days. "No hair, money refunded." Have living evidence; age, 56, growth of hair ½ inch, treatment two months. For treatment, &c., call on or address Alex. Warner or Mrs. E. S. Wass, Third and Morrison, Portland, Oregon.

NOTICE.

The undersigned in taking leave of Portland returns his sincere thanks for the liberal patronage that has been bestowed, and would bespeak for his successors a continuance of the same.

DR. WARNER'S SANITARY CORSET.

TESTIMONIAL.

VICTORIA, B. C., August 10, 1876.

MRS. M. A. WARNER—*Dear Madam*: Six months ago I received from you one of Dr. Warner's Health Corsets. The benefit from its use is wonderful. For six years I suffered—pronounced consumption—with severe pains of the stomach, chest, lungs and back, loss of appetite, and headache, during the time I wore the old style corset—long, stiff bones, laced tight. Ignorance of course. A few days after I wore Dr. Warner's Health Corset I felt better; continued to improve, and now am free from pain, have good appetite, breathe free, and feel as when I was a girl. What a blessing to the human race are those corsets! Enclosed is $2 50, currency. Send No. 22 White London Cord by mail. Respectfully,

MRS. JENNIE HASTINGS.

LYON'S KATHAIRON makes beautiful, glossy, luxuriant hair; prevents its falling out or turning gray. It has stood the test of 40 years. Is charmingly perfumed, and has no rival.

HAGAN'S MAGNOLIA BALM preserves and restores the complexion; removes freckles, tan and sallowness; makes the skin soft, white and delicate. Its application cannot be detected.

The perfect points of all first class machines are combined in the make-up of the No. 8 Wheeler & Wilson. All who have examined it recommend it as the best now in use.

Missionaries and others sojourning in foreign lands should not fail to take with them a good supply of *Johnson's Anodyne Liniment*. It is the most reliable medicine for all purposes there is in the world.

Contagious diseases, such as horse ail, glander etc., may be prevented by the use of *Sheridan's Cavalry Condition Powders*. Persons traveling with horses should take note of this.

WHY RUN ANY RISK WITH YOUR COUGH, COLD HOARSENESS, or indeed any Pulmonary or Bronchial Complaint, when a remedy safe, thorough, and so easily obtainable as Dr. D. Jayne's Expectorant can be had? If you have contracted a severe Cold, save your Lungs from the dangerous irritation and inflammation, which frequently brings about Consumption, by promptly resorting to the Expectorant; and if troubled with any Affection of the Throat, you will find this remedy equally effectual in affording relief from obstructing phlegm, and in healing the inflamed parts.

POETRY OF SCIENCE.

Messrs. Water and Oil
One day had a broil,
As down in the glass they were dropping;
But would not unite,
But continued to fight,
Without any prospect of stopping.

Mr. Pearlash o'erheard,
And quick as a word,
He jumped in the midst of the clashing;
When all three agreed,
And united with speed,
And Soap came out ready for washing.

HERO WORSHIP.

MART BROWN HAS IT BADLY.

[From the Cincinnati Enquirer.]

But the most notable object of interest we have out in our Western regions, continued Brown, his eyes gleaming with devotional fire, is old General Joe Lane. I suppose there are thousands of people in this country familiar with his name and record who would swear he was dead, and the young politicians of the present generation manage to get along without mentioning him at all, which is very remarkable. I sometimes think, considering what a conspicuous figure he was in American politics twenty years ago, Indiana idolized him. No man ever received such an ovation [illegible] in the field as Joe Lane when he [illegible] from Mexico at the close of the war, [illegible] the State a chance to carry him on [illegible] for his gallantry at Buena Vista. He [illegible] West in 1856, was appointed Provisional Governor of Oregon by Fillmore, then was in the [illegible] and had just finished his [illegible] when the Charleston Convention recognized him [illegible] proslavery opinions by [illegible] him on the ticket with Breckinridge. After that defeat he came back to us in disgust [illegible] the hot political places that once knew him will know him no more forever.

He bought a farm back of Roseburg, running up from the valley of the Willamette, and built him a small frame house high up on a picturesque spur of the Rogue river mountains, where he has lived ever since in the [illegible]. Two years ago he lost [illegible] whom he always called "The [illegible]" and loved devoutly. Since then [illegible] has been relieved by a negro [illegible] and keeps house for him. In [illegible] to see him. He's 83 now, [illegible] as an arrow, six feet two in height, [illegible] take up his rifle and bring home a [illegible] or follow down a trout stream over the [illegible] as well as the next man. And [illegible] a great deal.

[illegible] room in his cabin is sacred to his books, [illegible] one of the most valuable on the Pacific Slope. Strange how the old man [illegible] on to the skirts of the past! Old [illegible] old questions, old scenes, old [illegible] which have nearly faded out of our re[illegible] and given place to the issues and [illegible] are meat, drink and lodging to him. The new thoughts of an ever [illegible] race he cares very little [illegible] and seems to have made [illegible] that the country is retrograding. [illegible] ancient notions of political [illegible] and [illegible] ity, and any comparison with [illegible] him sick at the stomach.

[illegible] we got him worked up to [illegible] coming down from his garret in [illegible] and making a speech. It was on [illegible] of June, at [illegible] just as we were [illegible] to leave for St. Louis. We circulated [illegible] direction, and people came [illegible] miles to hear him, taking three [illegible] the journey. There were at [illegible] and when the old [illegible] the auditors stretched their [illegible] as if some revelation was coming, and [illegible] to be precious. Only a few [illegible] for his voice has drifted into [illegible] but curiosity kept them [illegible] till he closed. He reminded one, [illegible] presence and flowing white [illegible] of some John the Baptist in [illegible] crying unto the people to [illegible] when he came down from [illegible] he took us [illegible] to one side, [illegible] with faltering voice and tears [illegible] to give the country a pure ticket [illegible] bring back the honesty and decency [illegible] had lost, and the country [illegible] to see it stored.

[illegible] boys," for that's the name he called [illegible] look up to him with great veneration, [illegible] think there is still more eloquence in [illegible] weak, trembling tones than in all modern orators combined. The old man has only [illegible] left, to vote for Tilden and Hendricks. If the ticket [illegible] he wants to depart in peace, [illegible] for he will have lived to see the [illegible] salvation.

ANOTHER EXHIBITION OF TELEPHONY.—We are informed by the *Expositor* that at a party at the [illegible] of Prof. A. Melville Bell, [illegible] recently, a rare treat was afforded [illegible] in the experimental explanations [illegible] by Prof. A. Graham Bell, of Boston, of the new [illegible] of telephony lately invented by that gentleman. Instruments were placed, one in the porch of the residence and the other [illegible] on the grounds, and communication [illegible] these made by ten miles of [illegible]. Musical notes, the human voice, and [illegible] spoken and sung before one instrument [illegible] only audible by placing the instrument [illegible] at the other. By this invention, too, any number of messages can be conveyed over one wire in either direction, provided they [illegible] a different pitch; the tones of the voice can pass over the electric wire, enabling the [illegible] at any distance to hear distinctly what is said, and to distinguish the [illegible] of the speaker. On Thursday the professor had communication made with his instrument on the common telegraph wire [illegible] Brantford and Mount Pleasant (five [illegible]), and was spoken with, while in Mount Pleasant, by Professor D. C. Bell and Mr. Griffin from the *Dominion* office in Brantford. On Saturday evening the professor tried a new experiment, having had an instrument made so that three persons could sing different tunes or different parts of the [illegible] tune into the instrument at the same time. The trial was perfectly successful, the different voices coming distinctly over the wire at the same time, so that they could be separately distinguished by the listener. The practical exemplification of the lately discovered system of telephony made by the professor afforded much pleasure and information to those present.—*Toronto Globe.*

THE FIFTH AVENUE OF CAIRO.—All that is lovely and unlovely in Cairo finds its way to the Shoobra; the beauties and the beasts, the princes, the beggars, the camel trains and the odds and ends of humanity. You drive up one side of the way and down the other, ogling and being ogled to your heart's content. The fat gentleman in European costume, with a tarboosh and a half dozen mounted attendants, is the Khedive. In that close carriage under the protection of a eunuch on a splendid horse are two of his favorite wives, milk-white Circassian beauties, with their faces swathed in snowy folds of gauze; the exquisite carmine lips, even the faint rose tint of the cheek, are visible through this coquettish mask; high-arched eyebrows and eyes as black as night are busy with the world they know so little of. Lovely beyond description are those slaves, but spite of this dazzling loveliness you can see that it is chiefly artificial. The eyebrows are painted; the eyelids are tipped with kohl, and a dark line extending from the other corners of the eye makes them seem much larger than they are. That white skin is softened and made whiter with powder; the flush of the cheek and the glow of the lips have been heightened for the occasion, and all that gauze that covers the forehead like a turban, and the lower part of the face like a transparent mask, adds immensely to the brilliancy of these feminine charms. White camel's hair shawls covered with rich gold embroidery, lemon-colored kids, a Parisian fan, the light of the harem is suffered to blaze upon the world for a brief hour, but she must stop within her prison like a gorgeous tropical flower under glass, or that light will be put out!—*Cor. S. F. Chronicle.*

Choice Farms for Sale.

4,000 ACRES, IN QUANTITIES TO SUIT PURCHASERS.

230 ACRES DUE SOUTH AND ADJOINING the Railroad Depot at Salem; all under cultivation, and suitable for grain or vegetables.

946 Acres, four miles southeast of Salem, on the railroad, with Mill creek running through it. This is the choicest farming land in Marion county, with fine springs consisting in part of the old Rector donation claim, on which I raised the past year fifty bushels of wheat and three tons of timothy per acre. The first crop of oats ever raised on part of this land measured ninety-four bushels per acre, grain weighed and ground chained by Mr. Alfred Stanton of Salem.

2,700 Acres of prairie and light brush land, with timber for farming purposes, bounded by the Willamette River for four miles, beautiful lake on the east, boat landings all along the river, commencing four miles north of Salem—all choice grain land—the largest and most suitable body of land to be found in the Willamette Valley to be purchased by a colony. To be sold from $15 to $25 per acre. This land will all be immediately resurveyed and can be sold in larger or smaller parcels to suit purchasers. It can be subdivided to the best possible advantage, and I can offer any person or persons, or colony of persons desiring to purchase homes in the best part of the Willamette Valley, near the city of Salem and within reach of the best social advantages, as well as most favorably located with respect to markets, greater advantages, on more favorable terms, than they can ever expect to realize again.
